ACADEMY OF DENTISTRY

ANNUAL WINTER CLINIC

Thursday, November 28, 1968
ROYAL YORK HOTEL
TORONTO

PRESIDENT'S MESSAGE

Your Winter Clinic Committee, led by Chairman, Dr. George Stirling, has developed a diversified programme embracing many important phases of Dentistry.

Every member of the dental team — receptionist, assistant, hygienist, technician, dentist and dental specialist will certainly derive benefits from this full day.

It will be our pleasure to welcome you and your dental team to this Winter Clinic.

BERT J. LEVIN,
President.

Invocation

REVEREND J. E. HUNTER, B.A., B.D.
Forest Grove United Church, Willowdale, Ont.

Guest Speaker

JOHN BARFOOT MACDONALD
A.M. (Hon.) M.S., Ph.D., D.D.S., L.L.D.

Subject

"ACADEMIC FREEDOM AND ACADEMIC DISCIPLINE"

Dr. Macdonald comes to us eminently qualified in many areas; first as a dentist, a Toronto graduate of 1942; secondly as a bacteriologist, having earned a Master's degree in 1948 at Illinois and a Doctor of Philosophy degree from Columbia in 1953; thirdly as a scientific research worker; then as an administrator, from Toronto through Forsyth Dental Infirmary to the presidency of the University of B.C. He has sat on innumerable important committees, been the recipient of many honorary degrees, published varied scientific papers, been an editor, husband, father and friend. We are lucky and proud to have him share his time with us.

WINTER CLINIC DINNER

Concert Hall

6:00 p.m.

Guest Speaker

DR. HENRI BROUILLET

President

Canadian Dental Association

Subject:

"WHERE DO WE GO FROM HERE"

Biography: Dr. Henri Brouillet was born at l'Assomption, Quebec on July 31, 1916. He attended Assomption College, and received his D.D.S. degree from the Faculty of Dentistry, University of Montreal. He practises general dentistry in Montreal.

Dr. Brouillet was an Associate Professor, Faculty of Dentistry, University of Montreal (1946-55). He is a member of the Montreal Dental Society. He has served on the executive of the College of Dental Surgeons of the Province of Quebec since 1948 and was President for two terms. He has represented Quebec on the CDA Board of Governors since 1966.

GROUP CLINICS

Preparations of the Patient to Receive Complete Dentures

CHESTER PERRY, D.D.S., M.Sc.

Synopsis: Many dentures are constructed which may be mechanically adequate, but are failures because the patient has not been prepared to accept dentures. Any education that is imparted to the patient must be done before the dentures are completed and inserted in the mouth. Any explanation presented

to the patient after the insertion of their new denture is merely an alibi in the mind of the new denture wearer.

The patient must know that nothing of an artificial nature will equal sound natural teeth, that the construction of artificial teeth takes time and care on the part of the dentist to make them fit properly, be comfortable, and harmonize with facial contours. The dentures require a "breaking-in period."

Patients who wear dentures must develop the habit of wearing them. Their appearance will change after they have worn the dentures for a period of time to permit them to settle into the tissues and allow a natural facial expression to result. Their speech will be altered at first, the lower denture is the weaker element of the two and is the most difficult to master. Dentures lack permanency of adaptation to tissues because the bone and mucosa supporting the dentures change.

These statements are in no way a substitute for inadequate and poorly constructed dentures but are meant to be used as a guide to the patient in the use and care of his new dentures.

Biography: Received D.D.S. from University of Michigan in 1932, M.Sc in Oral Biology from University of Detroit in 1967. A member of the teaching staff since 1932, professor of denture prosthesis 1947-1967 now Associate Clinical Professor at University of Detroit. A member of the Council of the Academy of Denture Prosthesis. Associate Editor of the Journal of Prosthetic Dentistry. Past President of numerous dental societies author of many publications, and member of a long list of other committees.

PLACE — CONFEDERATION ROOM

TIME — 9:30 a.m. — *Chairman* — DR. CARL PURDY

2:30 p.m. — *Chairman* — DR. EDWARD DOWNTON

**"Procedures used in Restorative
Dentistry and the Basic Principles
Necessary to bring them to a
Successful Conclusion"**

MICHEAL POTTINGER, D.D.S.

Synopsis: Starting with the patient's first appointment and following through the treatment planning and the problems we may encounter to obtain a successful conclusion of various types of situations in Restorative Dentistry.

Biography: Member of the class of 1950 at the University of Toronto.

Member of the Canadian Academy of Prosthodontics.

American Prosthetic Society.

American Equilibration Society.

Past President of the Vancouver Crown and Bridge Study Club.

Past President of the Vancouver Denture Study Club.

Papers presented to:

The Canadian Academy of Prosthodontics

The American Prosthetic Society

The American Academy of Prosthodontics

PLACE — TUDOR ROOM

TIME — 9:30 a.m. — Chairman — DR. A. M. ADAMS

2:30 a.m. — Chairman — DR. RON MARTIN

"A Candid Camera Samples a Variety of Patterns of Work Techniques"

DONALD G. COBURN, D.D.S.

Synopsis: Memo motion photography records a cross section of relationships between chair-side work habits, productivity, comfort, patient care and environment. This work has been carried out in a variety of dental offices in Canada and the U.S.A. using 16 mm coloured film. The camera centred above the patients head reveals a birds eye view of man doing dentistry. Office procedures supporting four handed dentistry will also be discussed.

Biography: Graduated from Faculty of Dentistry — University of Toronto — 1951. Practice in Hamilton Ontario.

Member of: Canadian Academy of Restorative Dentistry
Francis Vedder Society,
Hamilton Dental Association

Lectures at University of Toronto, and the State University of New York at Buffalo.

Staff appointment to the Hamilton General Hospital.

PLACE — ALBERTA ROOM

TIME — 9:30 a.m. — *Chairman* — DR. R. HAMILTON
2:30 p.m. — *Chairman* — DR. B. MCLEAN

"Oral Surgery and General Practice"

WILLIAM W. DOWHOS, D.D.S.

Synopsis: The presentation will deal with the surgical problems the general practitioner encounters within a busy and varied day. The overall approach to the surgical patient, which includes pre-surgical and post-surgical care, will be emphasized along with surgery for the patient with a systemic background.

Biography: Dr. Dowhos graduated from University of Toronto in 1957. He practiced dentistry for nine years in Port Arthur, and returned to the University of Toronto to receive his certification in Oral Surgery in 1968. His present position is Oral Surgeon in the Port Arthur Clinic, and is on staff of the Port Arthur General Hospital, and St. Joseph's Hospital.

PLACE — QUEBEC ROOM

TIME — 10:45 a.m. — *Chairman* — DR. J. R. HANNAH
3:45 p.m. — *Chairman* — DR. V. N. DIRENFELD

"Management of Children in the Dental Office or Look Mom, no Drugs."

MARVIN D. KLOTZ, D.D.S.

Synopsis: An attempt will be made to instill a philosophy of practice as well as to discuss office procedures which allow the treatment of children without excessive use of pre-medication or general anaesthesia. The psychological, physical and motivational aspects of child and parent education, orientation and treatment will be presented.

Biography: Dr. Klotz Received his D.D.S. degree from U. of T. in 1960, his M.Sc. from Northwestern University in 1964, and his Fellowship in the Royal College in 1967. In 1963 and 1964 he was the paedodontic resident at Children's Memorial Hospital in Chicago. He has been practicing paedodontics in Toronto since 1964 and is on the dental staff of Scarborough General Hospital and the maxillo-facial unit. He is a member of the CSDC, Ontario Society of Paedodontists and the Canadian and American Academies of Paedodontics.

PLACE — BRITISH COLUMBIA ROOM

TIME — 9:30 a.m. — Chairman — DR. W. D. BEATON

2:30 p.m. — Chairman — DR. R. L. MORAN

Class II - Case Selection, Methods of Treatment by the General Practitioner

WILF MCCOLEMAN, D.D.S.

Synopsis: The General Practitioner can produce highly creditable treatment results of some types of class II malocclusion. This presentation will cover diagnosis and treatment of those class II cases the clinician considers amenable to treatment by the general practitioner.

Biography: Graduated from University of Toronto 1946

Post Graduate Training in Orthodontics 1957

Associate in Orthodontics University of Toronto

Member of Canadian Society of Orthodontists and the Begg Society of Orthodontists

Secretary of the Academy of Dentistry, Toronto

PLACE — ALGONQUIN ROOM

TIME — 10:45 a.m. — Chairman — DR. R. S. MCKEGNEY

3:45 p.m. — Chairman — DR. J. B. HINCH

"PAIN — The Radiology Aspect"

H. G. POYTON, D.D.S.

Synopsis: This presentation deals with the importance of the x-ray examination in the investigation of causes of pain. Many examples will be shown where the radiograph has revealed the cause of pain.

Biography: Undergraduate: Guy's Hospital Dental School, University of London — Graduated 1934.

Postgraduate: Eastman Dental Hospital, University of London, H.D.D., Edin. 1949, F.D.S. 1951.

Professional Practice: Private practice, Public appointments, Armed Forces, Lecturer in Radiology, University of London.

Present Appointment: Professor and Chairman of the Department of Radiology, Faculty of Dentistry, University of Toronto.

Honorary Degrees Etc. . . .

— Founder Secretary British Society Dental Radiology

— Member American Academy Oral Roentgenology

— Honorary Member — Toronto Radiodontic Study Club

— Advisor to Department of National Health & Welfare

— Consultant to Scientific Journals

— Staff Consultant to Hospital for Sick Children, & Crippled Children's Centre

— Dental Radiologist to Toronto General Hospital

PLACE — TERRITORIES ROOM

TIME — 9:30 a.m. — Chairman — DR. B. K. ARORA

ORAL PAIN — A Radiographic Assessment

PETER BELL, D.D.S.

Synopsis: The Etiology of Pain Associated in and about the Oral cavity will be demonstrated by radiographs of selected cases.

Biography: Graduated in 1963 from University of Toronto Faculty of Dentistry. Returned for post graduate training in 1965 after two years in general practice. Received MSc. in Pathology and Radiology in 1968. Presently enrolled in Ph.D. Program in Radiation Biology. Staff member, department Radiology, Faculty of Dentistry U. of T. Member of American Association, advancement of Science. International Association of Dental Research, and American Society of Zoologists.

PLACE — TERRITORIES ROOM

TIME — 2:30 p.m. — Chairman — DR. D. C. TESKEY

"Endodontic Emergencies"

JOHN L. STORMS, D.D.S.

Synopsis: Examination, diagnosis and treatment of the emergency patient suffering discomfort of pulpal origin will be discussed. Simplified procedures will be presented to enable the general practitioner to achieve a high rate of successful endodontic treatment with a minimum of inconvenience for the patient.

Biography: Dr. Storms received his D.D.S. degree in 1951 and B.Sc. (D). in 1967 from the University of Toronto. After practicing in Fonthill, Ontario for 10 years, he moved to Toronto. He is a member of the American Association of Endodontics and the Canadian Academy of Endodontics. His practice is limited to endodontics.

PLACE — ALBERTA ROOM

TIME — 10:45 a.m. — *Chairman* — DR. F. B. BURNS

3:45 p.m. — *Chairman* — DR. G. E. SPARROW

"Trouble Shooting With Pins"

E. J. RAJCZAK, D.D.S.

Synopsis: This presentation will cover various uses of pin retention to obviate some problems in restorative dentistry such as the replacement of worn acrylic facings, solderless joints, and replacement of faulty units in extensive bridgework.

Biography: Graduated from the University of Toronto, 1956 — post-graduate training in the area of restorative dentistry and occlusion taken through the medium of numerous short courses — formerly instructor in oral diagnosis and post-graduate crown and bridge-work at the University of Toronto — Member of: Canadian Academy of Restorative Dentistry, Canadian Academy of Prosthodontics, American Academy of Dental Practice Administration, American Equilibration Society — Presently in full time practice with emphasis in the area of restorative dentistry and occlusion.

PLACE — QUEBEC ROOM

TIME — 9:30 a.m. — *Chairman* — DR. A. TYNIO

2:30 p.m. — *Chairman* — DR. R. SHUNOCK

"The Use of Antibiotics in Dentistry"

JOHN F. McDOWELL, D.D.S.

Synopsis: Antibiotics will be reviewed with a view towards their rational use in dental practice. Factors such as absorption, distribution, fate, excretion, antibacterial spectrum, and cost will be related to the choice of drug. Adverse reactions accompanying antibiotic therapy will be discussed regarding etiology and treatment.

Biography: D.D.S. 1964 U. of T. — B.Sc.D. (Anaesthesia) 1966 U. of T. — Practice of Dental Anaesthesia — Staff: Department of Pharmacology — Staff: Department of Anaesthesia, U. of T.

PLACE — BRITISH COLUMBIA ROOM

TIME — 10:45 — *Chairman* — DR. C. S. MUNRO

3:45 — *Chairman* — DR. H. A. HARVEY

"Insight Into German Orthodontics"

MAJOR HENRI MARION

Synopsis: The socio-economic factors influencing the availability of orthodontic treatment to the German population will be reviewed. The orthodontic diagnostic and therapeutic approach will be discussed.

Biography: Graduated from the Université de Montréal, Faculty of Dentistry in 1958. Has served with the Royal Canadian Dental Corps ever since. While on a normal tour of duty overseas, attended the undergraduate orthodontic training program at the University of Freiburg, and spent some time in the graduate clinic. Is presently a member of the staff at the RCDC School in CFB Borden.

PLACE — ALGONQUIN ROOM

TIME — 9:30 — *Chairman* — DR. ERIC LUKS

2:30 — *Chairman* — DR. NEIL MUNRO

"Silicate Cements, Resins and Composite Resins.

Why and Where"

A. BRUCE HORD, D.D.S.

Synopsis: An evaluation of two common and one new restorative materials for the treatment of anterior caries. Emphasis will be placed on the selection of the material for the lesion rather than a comparative analysis of the advantages and disadvantages of each.

Biography: Graduated Faculty of Dentistry, University of Toronto 1947 — Received B.Sc.(Dent) in dental materials and histology 1949 — Was part time at the Faculty of Dentistry U. of T. in Materials and Operative Dentistry for 16 years. In General Practice in Toronto for 21 years. Retired from practice in September, 1968. Now Assistant Professor Restorative Dentistry, Faculty of Dentistry, U. of T.

PLACE — TERRITORIES ROOM

TIME — 10:45 — Chairman — DR. B. LINGHORNE

3:45 — Chairman — DR. A. IKSE
